

RETURNABLE PACKAGING CONDITIONS OF CALDIC NEDERLAND B.V.

Issued and applicable as of 1 January 2013

Caldic promotes the use of returnable packaging material to reduce the impact on the environment, which is in line with our support to the Responsible Care initiative. Please find below the conditions relating to our returnable packaging.

1 Conditions

The returnable packaging material remains the legal property of Caldic.

2 Deposits

Deposits on returnable packaging material are invoiced separately and are calculated in accordance with the current price list. Deposits will be refunded after the packaging is returned, but will not be refunded when the packaging:

- is returned after more than 6 months;
- is not completely empty (according to ADR standards);
- is not clean, damaged or contains rust on the inside;
- was used to store other products and for mixing purposes;
- stickers or markings are removed, covered, altered, damaged or otherwise made illegible.

Applying the points above is essential as incorrect handling of chemical products can be dangerous and can lead to serious personal injury and damage to our assets and the environment.

3 Rent

The daily rent is calculated monthly per calendar day and from the day of delivery until the day of return.
