

Technical Datasheet

Product name **Furex NM 940**
Brand FUREX
Market Fire extinguishing agent

Main components	Wetting agent (fluorine free ¹)
Maximum rating	6 liter: 21 A (2.5% solution)
Standard colour	White
Odour	Specific
Density at 20 °C	Approx. 1.01 g/cm ³ (2.5% solution)
pH value	Approx. 8.5 – 9.5 (2.5% solution)
Storage temperature	10 °C – 30 °C
Application	Additive for water extinguishers, Wetting agent
Shelf life	1 year, with proper handling and storage in original closed packing

Manufacturer's note:

Mixing different extinguishing agents and additives can lead to crystallization, flocculation or corrosion in the container. In this case, the manufacturer does not guarantee the extinguishing ability of the extinguishing agent.

Use FUREX NM 940 only according to the manufacturer's recommendations. The warranty expires immediately in case of non-compliance.

Furex NM 940 is certified according to the current European Norms EN 3-7.

Packaging:

Available in 25 kg.

¹ Products manufactured without the intentional addition of fluoroorganic compounds to enhance performance. According to available PFAS analysis methods, they contain no relevant levels of fluoroorganic substances beyond regional background contamination.
